Greetings my friend!

As we near the first annual Global Youth Summit, I again want to invite your participation. At this late date, I suggest a photophone exchange and/or a computer conference between the youth delegates in Hiroshima and their peers in Moscow. The dates of the Summit are October 8-9, 1988. Please let me know your creative thoughts.

As you may know, the participation of Soviet students in the Earth Voyage program has been delayed until Spring, 1989. A Znanie Society lecturer will be joining the ship for the Fall, 1988 voyage. I would appreciate it if you could E-mail me a telex number for the Znanie Society. Also, please send names and short biographies on the Earth Voyage selection committee members we discussed on my last trip.

I am planning to visit Moscow sometime before the end of the year. Please stay in touch via SFMT or my telex number. I did not receive a response to the last telex message I sent you at the Film Studio.

Best of luck!

Warmly,

Kirk
